Comprehensive Concussion Center

Fairfax Family Practice Comprehensive Concussion Center's 30 minute lecture style presentation for athletes parents and coaches delivered by a concussion specialist providing the essential information about recognition of signs and symptoms of a concussion, the importance of providing appropriate immediate response to a concussion and procedures to follow for post trauma care including return to play. Individuals, teams or youth associations will benefit from the online tracking we provide.

Call 703 391-2020 to learn more about our concussion education and testing programs.

Fairfax Family Practice Center also provides post-trauma concussion evaluation, treatment and return to play as well as other sports related injuries. The staff at Fairfax Family Practice include concussion specialists who have been involved in concussion research for almost 20 years, and collectively have provided care for over 5000 concussed athletes. Knowing that each concussion is unique, the FFPC concussion specialists work together evaluating, managing, treating and rehabilitating the different facets of concussions. **Call 703 391-2020 for an appointment to see one of our concussion specialists.**
